Okay, take a deep breath... now relax. We're Allied Van Lines.

Whether you're moving down the street or around the globe, your life is about to change before your very eyes. And with everything you have to think about already, you shouldn't have to worry about the actual move itself.

At Allied Van Lines, we know that nothing puts people at ease better than trust. Our 75 years in the moving business has earned us a great deal of trust helping people like you deal with important life changes. Allied's expertise travels with you every mile of your move — that's what has made us the largest, most recognized van line on the continent.

And, because Allied moves more people than anyone else, we've perfected the process. Electronic estimating, Stretchwrap Furniture Protection and computerized tracking systems are just some of the industry innovations we've developed to help make your move go smoother.

Allied's goal is to provide you with the best quality of service in the moving industry. Bar none. So, we offer you the Quality Alliance, a cohesive team of agents, drivers and employees striving to meet standards that rank as the most comprehensive in the industry. And, unlike other movers, we provide tangible evidence to support our claim. Regular customer satisfaction surveys not only tell us that customers rate their moving experience as 'excellent,' they also provide the information we need to maintain and improve each area of service.

So relax a little. Let Allied carry the load.

You can't help but make the right move with Allied.

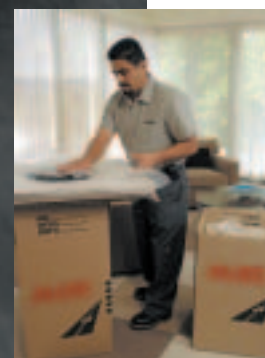

Because we know the significance of moving in our customers' lives, we're glad to provide whatever information and guidance we can as you consider your options.

To help you better understand what we offer and how that compares to other companies, we'll assign you your own **Personal Relocation Consultant**, an experienced person with the know-how to help you through the entire move process.

Your Consultant will develop a timely, accurate cost quotation, as well as a reassuringly thorough **Personal Moving Plan** where all expectations, deliverables, timing and costs are clearly spelled out. In-home electronic surveying and inventory systems available through most Allied Agents provide even quicker, more accurate, easier to read estimates.

In addition to helping with planning, your Allied Consultant will also be there for you throughout the whole move, providing information and reassurance at every turn. You'll be so relieved to have such a great resource during this busy time that you may start to think of your Consultant as, well... a member of the family.

Enough said... let's get **PACKING.**

Since Allied offers such a comprehensive range of services, you'll get exactly the kind of help with packing that you want, tailored to your needs, your schedule and your budget.

Full-Service Packing offers you complete convenience. Our experts pack all your household items using the most up-to-date packing methods and materials in the industry. If you need help with only breakable or high-value items like dishes, artwork, glassware or particularly fragile furniture or mirrors, then our **Fragile Packing** service is your best option.

To protect upholstered furniture from soil damage, Allied provides Stretchwrap Furniture Protection, a strong clear plastic that covers and clings to furniture. We use it in every move at no additional cost to you.

Packing everything yourself? Make the job as easy as possible. Ask your Allied Agent about our affordable boxes and professional packing materials. You might also want a little friendly advice, so we'd be happy to share our years of packing expertise with you!

You can relax knowing our **Pack-and-Load Technicians** are well trained professionals who employ proven packing techniques to assure on-time, intact and on-budget delivery. In addition, continuous follow-through from your Allied Move Team makes it possible to react to any unexpected occurrences or changes in your schedule.
